

eyesafe

Your safety is our vision

Our commitment is to keep employees safe, which is why we are partnering up with **Eyesafe**® a prescription safety eyewear program. This program makes it simple for employees to get the prescription safety glasses they need, matched specifically to their type of work, and comply with employer specifications while offering a significant cost savings.

You can choose from any of the 350+ Eyesafe® clinics in Alberta. Find clinics by visiting www.eyesafe.ca and clicking on **Find an Optometrist**. Enter your postal code and a list of the Eyesafe® optometrists in your area will appear.

For more information, contact your Eyesafe Program Administrator.

Here is
how you
order your
prescription
safety
glasses

IN 5 easy steps

- 1 Obtain a job ticket from the Eyesafe administrator.
- 2 Book an appointment with an Eyesafe optometrist.
- 3 The clinic you visit will know compliance requirements specific to you.
- 4 The clinic will order your glasses.
- 5 When you pick up your glasses, the clinic will ensure there is a perfect fit to your face.
